EDUCATION

Boston University, Boston, MA

Aug 2024

Bachelor of Arts in Computer Science, Minor in Mathematics

GPA: 3.67/4.0

Relevant Coursework: Object-Oriented Programming, Embedded Systems, Software Engineering

WORKING EXPERIENCE

Boston University, Boston, MA

Jan 2023 – May 2024

Course Assistant

- Facilitated weekly office hours, providing robust support to students in their assignments and reinforcing key lecture concepts.
- Collaborated with fellow teaching staff, ensuring meticulous preparation and seamless delivery of lab sessions.
- Responded promptly and adeptly to student queries via email and Piazza, fostering an engaging online learning environment.
- Demonstrated precision and timeliness in grading students' assignments, maintaining a high standard of accuracy and efficiency.

Progressive Computing Inc., Yonkers, NY

Jul – Sep 2022, Jul – Aug 2023

Software Engineering Intern

- Saved the company 30 hours a week by developing a Python script to automate the closure of tickets through ConnectWise API.
- Created a master repository for the company's 60+ partners and clients with onboarding software for Network Engineers' use.
- Resolved 2000+ tickets in ConnectWise Manage and corrected 100+ configurations on the corporate ITGlue database.
- Deployed custom-made Linux scripts to initialize 35+ Raspberry Pis for autonomously tracking clients' security vulnerabilities.

The Digital Arts Experience, Scarsdale, NY

Jul 2021 – Aug 2021

Teaching Assistant

- Facilitated the supervision and instruction of 6 classes in topics ranging from game development to Python programming.
- Led several Python Turtle Graphics classes and introductory programming classes in Python with 10+ students.
- Organized all classroom areas before morning and afternoon classes, making sure to follow proper COVID safety protocol.
- Oversaw the safety of 25+ students throughout class time, breaks, lunchtime, and parent pick-up time.

City of White Plains, White Plains, NY

Jul 2020 – Aug 2020

Accessibility Coordination Intern

- Mapped 30+ public accessibility parking spaces with precise descriptions to better serve handicapped drivers or passengers.
 - Developed a cohesive 20+ page application for the AAA Community Traffic Safety Awards Program representing White Plains.
 - Digitized and filed 50+ traffic impact reports and work orders, contributing to improved signage city-wide.
 - Analyzed and visually represented crash data, effectively identifying patterns to enhance safety during late-night driving.
 - Provided 100+ daily visitors with a pass to hospital locations and guided visitors to their desired location.
-

VOLUNTEER EXPERIENCE

White Plains Hospital, White Plains, NY

Oct 2018 – Mar 2020

Front Desk Receptionist

- Provided friendly and attentive customer service to an average of 40+ visitors and patients, offering wheelchair support, etc.
 - Demonstrated exceptional commitment and professionalism as the inaugural volunteer receptionist during the assigned shift.
 - Employed Meditech Search software to swiftly locate an average of 150+ inpatients across the hospital's several departments.
 - Provided 100+ daily visitors with a pass to hospital locations and guided visitors to their desired location.
-

PROJECTS

SAMSALVA: Photo-Sharing, *Web Application in Python and JavaScript*

Jan 2023 – Mar 2023

- Developed a dynamic website enabling users to share and showcase their photos, akin to social media sites like Instagram.
- Utilized object-oriented database manager in SQLite, alongside a Flask backend and HTML, CSS, and JavaScript frontend.

Mx-Worldwide, *Web Application in Angular and Python*

Oct 2022 – Dec 2022

- Constructed a web application that endows users the ability to choose a song and translate its lyrics to their target language.
 - Designed a decoupled Angular frontend and Flask backend, leveraging the power of Genius, DeepL, and Spotify APIs.
-
